

STELLA WATCH COMPANY
NEW YORK

STELLA FELIX
SETTING AND WINDING
INSTRUCTIONS

STP 1-11 SWISS
AUTOMATIC MOVEMENT

THREE HAND WITH DATE

SETTING THE DATE AND TIME

THE STELLA FELIX IS EQUIPPED WITH A SCREW DOWN CROWN*, GIVING ADDED SECURITY TO THE WATER RESISTANCE AND PROTECTION OF THE MOVEMENT FROM DUST AND MOISTURE.

BEFORE SETTING THE DATE OR TIME, GENTLY TURN THE CROWN COUNTER-CLOCKWISE UNTIL YOU FEEL IT CLICK AND RELEASE. IN THIS POSITION YOU CAN MANUALLY WIND THE MAINSPRING. PULL THE CROWN OUT TO POSITION 2 OR 3 TO SET.

*IT IS VERY IMPORTANT TO COMPLETELY SCREW THE CROWN BACK DOWN AFTER SETTING. FAILURE TO DO SO CAN RESULT IN YOU SEVERELY DAMAGING THE WATCH.

SETTING THE DATE

PULL CROWN OUT TO POSITION 2. TURN CLOCKWISE TO SET THE DATE.

SETTING THE TIME

PULL CROWN OUT TO POSITION 3. TURN CROWN CLOCKWISE TO SET THE HOUR AND MINUTE HANDS. IF NECESSARY TURN THE CROWN OVER 12H IN ORDER TO KNOW IF YOU ARE IN AM/PM MODE. RETURN CROWN TO POSITION 1. WHILE GENTLY PUSHING THE CROWN IN, TURN CLOCKWISE UNTIL THE CROWN IS COMPLETELY SCREWED BACK DOWN.

WINDING

YOU CAN MANUALLY WIND THE MAINSPRING IN POSITION 1. AFTER UNSCREWING THE CROWN, TURN THE CROWN CLOCKWISE FOR ABOUT 30 ROTATIONS OR UNTIL YOU FEEL SOME RESISTANCE. YOUR WATCH WILL BE FULLY WOUND.

IT IS RECOMMENDED YOU DO NOT CHANGE THE DATE BETWEEN 10 PM AND 2 AM. THIS IS WHEN THE MOVEMENT IS IN POSITION TO CARRY OUT THE AUTOMATIC DATE CHANGE.

BE SURE TO ALWAYS RETURN YOUR CROWN TO THE SCREW DOWN POSITION AFTER WINDING OR SETTING.
